BAYTREE

ENGINEERING & CONSTRUCTION

01 Who We Are

We build the things people don't see.

The reinforced ground beneath a highway. The geotextile layers holding back the Atlantic from a coastline. The drainage system that keeps a city from flooding during the rains.

Baytree is a Nigerian engineering and construction company with deep expertise in geosynthetics, marine protection, and civil infrastructure. We handle the full lifecycle — design, materials, construction — so there's one team accountable for the outcome.

Our identity reflects that work: layered, precise, built to last.

- **We measure twice.**
  Everydetailmatters.Precision isn't a buzzword for us — it's how we keep coastlines intact.
- **We go deep.**
  Geotechnical,marine, civil — we don't skim surfaces, we engineer what's underneath them.
- **We own the whole job.**
  Designthroughconstruction. One team, one outcome, no finger-pointing.
- **We build for decades.**
  Ourinfrastructureoutlasts us. That's the point.

02 The Logo

Five strata bars. One wordmark. One thin laterite rule. That's it.
The bars represent what we actually build — layered infrastructure systems.
The tree is gone. The name isn't about trees. Never was.

03 Lockups & Icon

HORIZONTAL Headers, letterheads, email signatures, livery.

BAYTREE

BAYTREE

ICON Favicon, social profiles, app icon. The five bars work at any scale.

04 Colour & Type

Three colours. One typeface. That's the entire system.

Forest Green	Concrete Grey	Laterite Clay
#2A4B20	#6C706C	#A8763E

Forest Green does the heavy lifting. Laterite is the accent — dividers and highlights only.
Grey handles body text and secondary elements. Keep it quiet.

Charcoal	Moss	Sage	Silver	Oyster
#262826	#446B35	#809870	#B2B6B0	#F6F4EF

TYPEFACE — LATO
Geometricenoughforengineering. Warm enough to not feel clinical.

Bold **Aa Infrastructure Engineering**

Regular Aa Infrastructure Engineering

Light Aa Infrastructure Engineering

Thin Aa Infrastructure Engineering
